

Microsoft FRx Professional

BENEFITS

- Build custom reports
Piece reports together using a “building block” approach that facilitates easy design and maintenance and helps ensure each report communicates the right information.
- Improve information analysis
Export Microsoft FRx reports to Microsoft Office Excel PivotTable/PivotChart formats, to make analysis easier.
- Reduce administrative work
Automate report processing and distribution capabilities to reduce the time employees spend on administrative work, freeing them to analyze information and make informed, strategic decisions.
- Simplify the report building process
Benefit from the familiar spreadsheet look and feel and allow anyone with the appropriate privileges to create customized reports quickly.
- Maintain reports seamlessly
Eliminate time-consuming processes for updating and maintaining reports through tight integration with Microsoft Dynamics SL.
- Enhance corporate communications and collaboration
Use multiple report formats and distribution techniques to help ensure the right financial information is being delivered to the right people.
- Access reports securely
Establish custom security settings to help ensure information is accessed only by users with secured rights.

Microsoft Dynamics™ SL

Master your financial reporting process with Microsoft FRx for Microsoft Dynamics SL. High-performance capabilities give you comprehensive, highly-customizable financial and management reports that are easy-to-create, distribute, and use.

Create reports using a “building block” approach that helps ensure each report is built to meet your specific needs.

The Spreadsheet look and feel makes it easy for anyone with appropriate access privileges to create customized reports.

Finished Microsoft FRx reports are presentation-quality, with drill-down capabilities that let you pinpoint detailed information.

Account	Balance	Debit	Credit	Balance
Revenue	300			300
Costs	100			100
Operating Expenses	100			100
Net Income	100			100

FEATURES

BENEFITS

Custom Report Design	Use a “building block” approach to design reports. Define the rows and columns that will appear in each report and Reporting Tree to establish the relationship between reporting units.
Familiar Spreadsheet Interface	Create financial statements easily by leveraging a familiar spreadsheet interface and tight integration with the Microsoft Dynamics SL general ledger and database structure.
Top-Level Report Analysis	Achieve superior report analysis by consolidating information from multiple companies and data sources—including unposted transactions or base period referencing—or by creating custom report relationships.
Sophisticated Calculations	Implement mathematics and if/then logic to incorporate complex calculations into your reports.
Report Relationship Customization	Create new reporting relationships by changing the Reporting Tree structure, without affecting data entry processes or rearranging account segments in the general ledger.
Currency Translation Support	Seamlessly translate currency across multiple accounting systems—including functionality for calculating monthly and annual average and historical rates—and quickly set up currency exchange rate tables with information pulled from the general ledger.
Bottom-Level Report Analysis	Analyze information from summary all the way down to transaction details with FRx DrillDown Viewer™.
Multiple Report Formats	View reports on the screen and drill down into underlying data. Print reports for presentations, e-mail them for easy distribution, or export them to spreadsheets for additional analysis.
Web-Based Reports	Publish, store, and manage reports through your Intranet or Internet, yet maintain full drill-down and printing functionality.
Comprehensive Report Books	Organize multiple document types in a single file, including Microsoft FRx reports, Microsoft Office document and Crystal reports.
Custom Security Settings	Set security by Reporting Tree level to ensure information is accessed by only those users that have the right permission settings.
Automate Report Delivery and Production	Use FRx Report Server to automate the production and distribution of reports in a scalable, high-speed reporting environment.
XBRL Support	Create and publish reports that are compliant with Extensible Business Reporting Language (XBRL).
